

Listing of Claims

1. (currently amended) A surface protective sheet having an anti-ultraviolet layer on at least one surface of a plastic film, wherein the anti-ultraviolet layer comprises at least an ionizing radiation curable resin composition, an ultraviolet absorber, ~~and~~ spherical microparticles having a mean particle diameter of 1 to 20 μm ~~and an organopolysiloxane~~, ~~and~~ the microparticles are contained in an amount of 0.4 to 3% by weight in the anti-ultraviolet layer when the layer has been cured, ~~and~~ the ultraviolet absorber is an absorber having a formula weight of 200 to 400, ~~and~~ the content of the ultraviolet absorber is 5 to 15 parts by weight based on 100 parts by weight of the ionizing radiation curable resin composition in the anti-ultraviolet layer ~~following curing~~, the thickness of the anti-ultraviolet layer is 66.6 to 80% of the mean particle diameter of the microparticles, and the anti-ultraviolet layer contains 0.01 to 1% by weight of the organopolysiloxane when the layer has been cured.

Claim 2 -7 (Canceled).

8. (previously presented) The surface protective sheet according to claim 1, wherein the ultraviolet absorber includes benzophenone based compounds.

Claims 9 and 10 (Canceled).

11. (previously presented) The surface protective sheet according to claim 1, wherein the spherical microparticles include silica.

Claims 12 and 13 (Canceled).

14. (previously presented) The surface protective sheet according to claim 1, wherein the ultraviolet absorber includes benzotriazole based compounds.

15 and 16 (Canceled).
